Holding the view I have always been opposed to the Executive bryards as was very set of the low of the city exercising the veto, as was verted by lew in the Board of Public Works, and therefore have always opposed that feature of the low, even so far as to not the low. The Common Council of the city of Cincinnatia at the Legislature to repail that portion of the law. The Common Council of the city of Cincinnatia at the Legislature to repail that portion of the law. The Common Council of the city of Cincinnatia at the Legislature of the city, should almost have the final say in truthing the laws, which when made should drind without power to the Board, whose city it is under the same to execute to the council only makes low, and I claim that a board charged with carrying the same into effect should simply have that duty to perform. But as the council should passed with the Board, it required four insenses to approve. This was final, virtually giving into the hands of two gentlemen the board to prevent sorthing taking effect that the Council should pene. This I always hold to be daugerous. A portion of the vete power remains in the new law. I hope to see this wiped out also. The remaining tegitner of the bill are but slightly changed, with the acception of the Board itself.

The Sheriff said that the passage of the bill was a confounded outrage. The Republicans would swamp the Democrate at the fall election. There was too much party legislation on both sides, and this should be stopped. The Democrate will see in the fail what the bill will amount to. They, the Legislature, should have passed the bill before the last checkee. It is a good thing now that there is no election come in each shortly—that is, it is a good thing for the Democrate. Ed. Boyce was failty elected, and the Democrate should let him have his place after spending his money.

County Clerk, was still a Colombus and will not come down here with he has in his pockets are compared to the new members, and of course cauld not be interviewed.

MR. JOST STIFFER.
Secretary of the Democrate Exceptive Committee.
Secretary of the Democrate Exceptive Committee. When Jost I will be Bowell have to do the same. The victors should have the political will be the Democrate for the Democrate of the Democrate in the last in the last in the red that will be used. It is the best thing she party could have done same. The victors should have the solid. The passage of the bill will do us good. It is not considered the county of early Republican specially low. Why shouldn't we do what the Republican have always been do ag. This proceeding won't have the factor of the County Commissioners and a stanch SHERITE SELECT WEDER

Several other prominent politicians were buttonholed by our reporter, and they almost unanimously said that the passage of the bill was a
death-how to the Democratic cause. The spirit
of the bill was too plein and showed the animus
of the measure in such a manuer that me good
Democrat could in the fall vote for that ticket.

ME JARIN MALONEY,
a prominent attorney of this city, kicked against the bill, and said that Judge Wilson's appointments as understood from good authority would be as follows:
Mat. Ryan. 4 years; Clastes W. Rowland, 5 years; A. C. Sands, 2 years; After Best, 1 year, and Charles Hilb or sumon Wolfstein, 3 years; He fue-A. C. Sauds, 2 years; Adam Best, 1 year, and Guarles Hilb or Sunon Wolfstein, 3 years. He fur-ther stated that Ed. Boyce would hardly have any show for the place. CORONER CARRIER.

hought that according its his view of the case it was a nonsensical more on the part of the Demo-metal this time. The letter would find out the ruth of the same, and flud that the Republicans

John Gibbons, residing on Front street, fell in a fit at the corner of Sixth and Elm streets about noon to-day, and was taken to the Hospital.

Fifty years ago the tomato was scarcely known in North America or Europe; now it is a great article of commerce in both hemispheres. Then it was called a "love apple;" why, we do not know. It was small and bitter, with large seeds, and only half filled with a watery pulp. To reish them, even when half disguised by the culinary art, was said to be an "acquired taste." No one, at first, eat them raw. Now they are large and compact. Now they are large and compact, The report that the Roh's Hill Pest-house will be burnt by the Trustees of the Hospital is untrue. The property will be advertised for sale and the purchaser will be at liberty to do with it as he also as the palatable. In fact, cooking to be made no longer require cooking to be made palatable. In fact, cooking spoils them as it spoils a peach, a cucumber or an orange; and it is even a profanation to "dress" them as a salad. To add any sort of garniture or condiment to a perfeetly ripe tomato is like "adding per fume to the violet."

Advertising Cheats.

It has become so common to write beginning of an elegant, interesting and then run it into some advertise that we avoid all such cheats and call attention to the merits of Hop lin as plain honest terms as possible, to duce people to give them one trial, one who knows their value will ever anything else.
